OBJECTIVE

Motivated Full Stack Developer with hands-on experience in building dynamic, scalable web apps using MERN stack, PHP, and Laravel. Proficient in Next.js, Tailwind CSS, and Bootstrap, with a passion for clean code and user-focused design. Eager to contribute innovative solutions in collaborative, fast-paced environments.

EXPERIENCE

- Full Stack Developer, SSQAURE PK**
 - Developed and deployed production-ready web applications like EthisX and Invoiceme.io ✉ using Next.js, React.js, and Laravel.
 - Designed and implemented fully responsive UIs using Tailwind CSS, Bootstrap, and Framer Motion for an enhanced user experience.
 - Collaborated with cross-functional teams to build and maintain features using Git for seamless version control and team workflow.

03/2025 – Present
lahore, Pakistan
- Mern Stack Developer intern, iifa tech**
 - Designed and developed a full-featured eCommerce store using **Next.js**, with seamless frontend and backend integration.
 - Integrated payment gateways, and built dynamic product, cart, and checkout flows using **Tailwind CSS**.
 - Developed RESTful APIs for authentication, product listings, order management, and secure payments.

18/11/2024 – 03/2025
Lahore, Pakistan
- Mern Stack Developer intern, Educist**
 - Contributed to an educational platform using **Next.js**, enhancing frontend functionality, performance, and responsiveness with **Tailwind CSS** and **Bootstrap** for a seamless cross-device user experience.
